Nilo Spa Design launch new treatment beds

20 March 2019

Spa therapy equipment specialists Nilo Spa Design have introduced two new treatment beds to their collection.

The Nilo All In One Multi-Function Treatment Bed (pictured top) is suitable for facial, massage, hair removal, pedicure, manicure treatments and reflexology treatments. With three motors, it has an electric backrest with height and knee adjustments, and comes with an external headrest and removable armrests. The mattress is covered in soft PU, which is fireproof and oil resistant. It also comes with a pipe-free hydro massage basin for pedicure treatments.

The Nilo Omnia Treatment Bed is a three-motor couch with adjustable gas-pump and extra-long armrests. The height, backrest and legs are electrically adjustable. The metallic structure is covered with a white or oak wood effect finish, and it comes with a PU mattress which soft touch, fireproof and oil resistant.
