

CREATIVE HEAD ADVERTORIAL

THE **MALETTI** MAISON SARAH LAVOINE COLLECTION

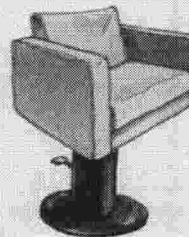

DESIGNER SARAH LAVOINE has a very distinctive approach: refined but 'revolutionary', very Parisian. In her work you'll enjoy a mix of unusual colour combinations, sinuous lines, and a beauty that makes a salon experience utterly enjoyable. It's about delivering a moment of relaxation in an elegant and welcoming environment where your clients can be pampered, a retreat from whatever awaits them outside of your salon doors. It's no wonder that the iconic Italian furniture expert Maletti has collaborated with Maison Sarah Lavoine to create a stunning, cosmopolitan collection of pieces that will elevate your salon's interior to the next level of client experience.

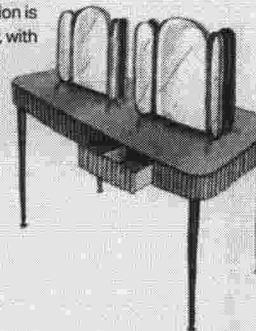

Maison Sarah Lavoine has unveiled two collections for **Maletti**, comprising pieces that promote an experience of wellbeing through a cosy, welcoming yet refined aesthetic. Here, Sarah Lavoine captures a hair salon environment in which you feel at home. The Noa collection will offer Maletti's traditional shape with beautiful piping, comprising a wash unit with twin colour

basin, frame flip technology, leg rest and spring technology in the seat. Alongside these pieces you'll also find a styling chair, again with piping, backrest and armrests in a single body made of moulded polyurethane foam with steel inserts, backrest, armrests and cushion cover.

The Sarah collection is a complete offering, with wash unit, stool, reception seating and desk and trolleys included, alongside styling tables and mirrors. Whichever shapes you fall in love with, both collections are designed in beautiful shades of pastel pink, turquoise, white and gold accent detailing, all combined making something that will stun on social media. This collaboration is the epitome of sophistication and luxury, with individual touches that will envelop your client in an oh-so elegant escape while in your care.
